

Carbide Tipped Bottom Slitter Blades

Hamilton Knife manufactures a complete line of **Carbide Tipped Bottom Knives** for the **paper, film, and foil converting** industries. Replacement knives for **Atlas, Beloit, Bielomatik, Black Clawson, Cameron, Dusenbury, E.C.H. Will, Jagenburg, Valmet, Wartsilla**, and others are available for shipment - usually from stock.

Manufactured in America from fine grained carbide materials. You will benefit from our quality, competitive pricing, and quick delivery.

Hamilton Knife has developed an ultra-finishing program to produce a precise, mirror-like cutting edge that is the finest available in the industry.

Ultra-finished carbide slitters will increase knife Life between Sharpening up to ten (10) times over steel slitters. Run time is substantially increased and changeover costs are dramatically decreased.

Service: Sharpening Knives

Hamilton Industrial Knife and Machine, Inc. located in Hamilton, Ohio, and our southern division, Carolina Knife Co., located in Asheville, NC can provide prompt Sharpening on a regular basis as well as emergency Sharpening as needed. **Our standard turnaround on Sharpening is 2-5 working days.** Ultra-finished surfaces are also available as an option from our Quality Grinding department. If you do not have Ultra-finish now, call us - we can upgrade your existing knives.

Re-tipping service is available for worn down steel blades. Inquire for further information.
